The vaccination calendar shows when we expect there will be doses available to vaccinate the different target groups.

1. Residents in nursing homes etc.
2. Citizens aged 65 years or above who receive both practical assistance and personal care
3. Citizens aged 85 years or above
4. Frontline staff in the healthcare sector, the elderly care sector and parts of the social services sector
5. Selected patients at particularly high risk
6. Selected relatives of people at particularly high risk
7. Citizens aged 80-84 years
8. Citizens aged 75-79 years
9. Citizens aged 65-74 years
10 a/ Citizens aged 60-64 years
10 b/ Citizens aged 55-59 years
10 c/ Citizens aged 50-54 years
10 d 1/ Citizens aged 16-19 years & 45-49 years
10 d 2/ Citizens aged 20-24 years & 40-44 years
10 d 3/ Citizens aged 25-29 years & 35-39 years
10 d 4/ Citizens aged 30-34 years

All figures are estimates and subject to change. There may also be overlaps of people between the groups. The figures for vaccine supplies up to June 2021 are based on confirmed quantities from the manufacturers, while the figures for July and onwards are based on the Danish Medicines Agency’s latest estimates.
