

NKR nr. 46 om behandling af anoreksi
AMSTAR-vurderinger PICO 8 og 9

Observer	Citation	PICO/PIRO	PIRO/PIRO name	List relevant outcomes	Was meta-analysis performed for the relevant outcome?	1. Was an 'a priori' design provided?	2. Was there duplicate study selection and data extraction?	3. Was a comprehensive literature search performed?	4. Was the status of publication (i.e. grey literature) used as an inclusion criterion?	5. Was a list of studies (included and excluded) provided?	6. Were the characteristics of the included studies provided?	7. Was the scientific quality of the included studies assessed and documented?	8. Was the scientific quality of the included studies appropriately formulated in conclusions?	9. Were the methods used to combine the findings of studies appropriate?	10. Was the likelihood of publication bias assessed?	11. Was the conflict of interest included?	Notes	
Hibbs			Bor voksne med anoreksi tilbydes en behandlingsform, som inddrager de pårørende/netværket aktivt i behandlingen?	Adfærdssymptomer (restriktiv spisning, tvangsmotion, binge, purge) LFU	no	Yes	Yes	No	No	No	Yes	No	No	Yes	Yes	No	ad 2: study selection was conducted by two researchers - men omtaler ikke metode til at afgøre	
Mette	2015		Bor voksne med anoreksi tilbydes en behandlingsform, som inddrager de pårørende/netværket aktivt i behandlingen?	Adfærdssymptomer (restriktiv spisning, tvangsmotion, binge, purge) EOT	no	Yes	Yes	No	No	No	Yes	No	No	Yes	Yes	No	uegnighed samt om duplicate dataekstraktion ad 5: liste over inkluderede, men ikke over ekskluderede	
				Andel af sund kropsvægt/BMI LFU	no												ad 9: MB: For de analyser, hvor IZ er ≤ ca 50% (stor heterogenitet) er der anvendt "meta regression", hvilket er ok iflg LK	
				Andel af sund kropsvægt/BMI EOT	no												ad 11: funding for reviewets forfattere oplyses, men ikke for de anvendte studier.	
				Psykologiske spiseforstyrrelsessymptomer LFU	no
