

A close-up photograph of a pregnant woman's belly, which is the central focus. Her hands are gently cradling the belly from the sides. She is wearing a light blue t-shirt and a green and white patterned skirt. The background is a soft-focus outdoor scene with greenery and a blue sky.

Protecting two lives with one shot

DANISH HEALTH
AUTHORITY

You can protect yourself and your child from whooping cough and influenza by getting vaccinated.

Remember to book an appointment with your doctor. You can, for example, book the appointment in connection with your examination in week 32 of your pregnancy.

You can read more about the vaccinations at sst.dk/gravid-vaccination
