

## Risk of bias domains

		D1	D2	D3	D4	D5	D6	D7	Overall
Study	Rydahl 2019								
	Kaczmarczyk 2007								
	Thisted 2015								
	Morikawa 2014								
	Mya 2017								
	Zwart 2009								
	Liu 2013								

### Domains:

D1: Bias due to confounding.

D2: Bias due to selection of participants.

D3: Bias in classification of interventions.

D4: Bias due to deviations from intended interventions.

D5: Bias due to missing data.

D6: Bias in measurement of outcomes.

D7: Bias in selection of the reported result.

### Judgement

Critical
